

Resurfacing Processes

Help your customers transform ugly, outdated floors and walls without having to experience the hassles of a costly renovation. Some surfaces just aren't worth saving, but that doesn't mean your clients have to replace them. Our resurfacing processes are a great fit for customers that want a new look, but are concerned about the time and expense that comes with an extensive renovation.

When you become a SaniGLAZE Franchisee, you will be professionally trained and certified to perform all SaniGLAZE resurfacing processes.
